

GFIE Index February 2015

Comments from M. Pierre-Jean Albrieux, President of GFIE

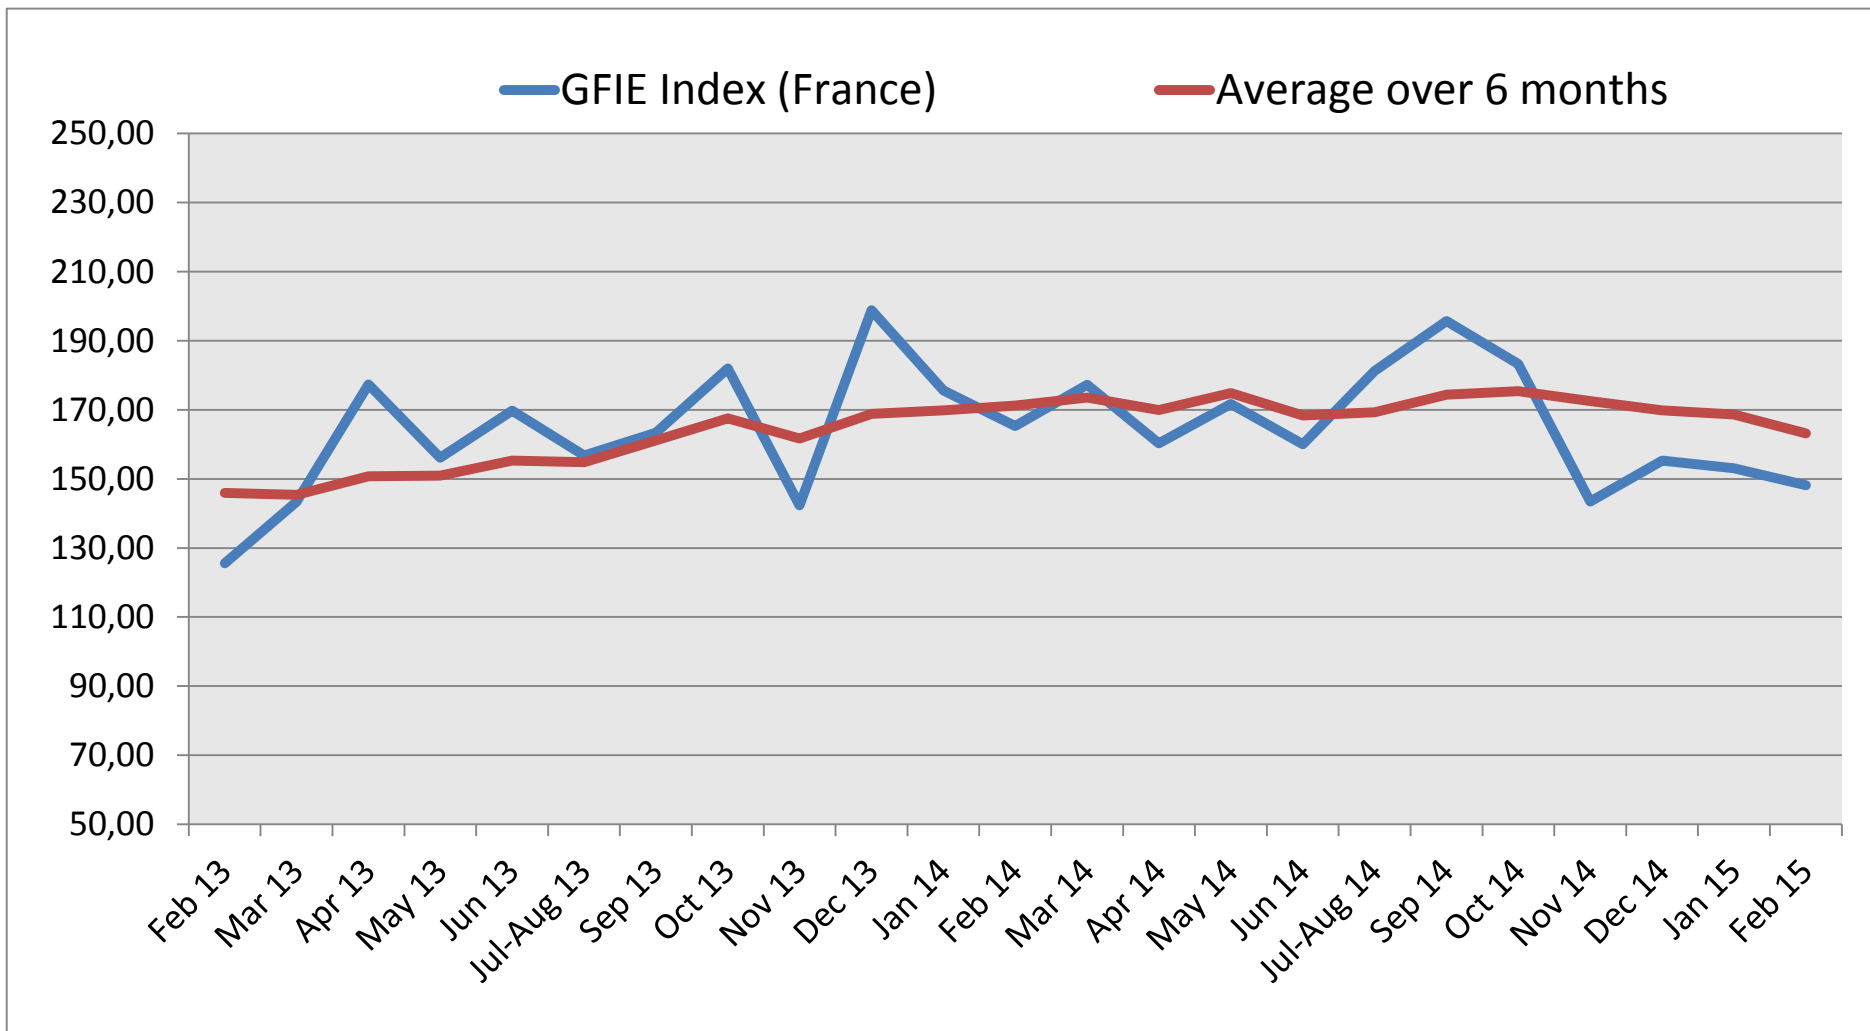

The France Index is flat, it fell slightly with respect to January: - 3.22% (-2% for the global Index). Such results may not be worrying since very often in previous years the February Index was lower than the January one. As January 2015 was “low” compared to 2014, this confirms that the beginning of the year is quite difficult. The trust Index, which stays “close to the stars” - It is even higher than the January one – confirms that the outlook for our activity remains good for 2015.
