

GFIE index April 2013

Comments from Mr. Pierre-Jean ALBRIEUX, President of the GFIE :

Our GFIE Index is still following the 2011 one... The performance of the machines, products and services to production index is the good news. The poor performances of the other indexes are the bad news... with the jury prize awarded to the export index. Regarding the trust index, on the decline of course (4.76/10), it is modelled on most of the comments of members who are modelled on the weather: so nothing to be delighted about. Why aren't we like marmots? So that we could spend winters quietly and in the warm? The other advantage is that during these periods, marmots lose weight and I'd appreciate it. Why the marmots? Because they are cuter than bears and we have several members who come from Savoie. All these words only to say that it is no need to complain or to be afraid, the electronic sector is flourishing, only the direction is missing but "ars longa, vita brevis".
